

Machine Art Art

David Glenn Rinehart

Is machine art art?  
(Ask a stupid question get a stupid answer.)

*Ah-h\* Corset.*

It's recognized as art if it's made by a recognized artist.  
*(The signature is the product; art is the buy-product.)*

The discerning critic will expect evidence of the artist's hand.  
(No one built a career critiquing machines.)

And images of young women modeling lingerie have always been art.  
(It's true: they really do almost sell themselves.)
