

Explosive Device

(Installation description)

The piece consists of a plinth¹ concealing a timed or remote-controlled explosive device²; a business card (above) is held in a gold-plated "alligator" clip projecting from the center of the top of the plinth.

1. Size: 1.5 meters tall and .5 meters square.
2. A site-specific explosive will be installed; it may range in size from a device small enough to merely damage the plinth to one large enough to destroy the entire building.
